Github: <https://github.com/harivick>

## EDUCATION

---

**BE – COMPUTER SCIENCE AND ENGINEERING** (September, 2020)

NPR College of Engineering and Technology affiliated by Anna University, Tamilnadu.

**HSC – BIO-MATHEMATICS** (April, 2016)

VHN Higher Secondary School, Madurai, Tamilnadu.

## EMPLOYMENT

---

**Capgemini Technology Services India Limited, India**

Analyst / Software Engineer (April, 2021 – to date)

- Trained on AWS, Linux, Sql, pl/sql, Python.

**LoveONN Technologies, India**

Artificial Engineer Intern (July, 2020 – October, 2020)

- Developed an AI based Login authentication using Face and Voice Recognition.
- Worked on using AI on a user's profile for a more engaging experience.

**WBIP, India**

Data Science Intern (February, 2019 – March 2019)

- Worked on Computer vision and NLP to find which corporation office and Akshaya center providing the best service to citizens.
- Here we took six districts in Kerala for this analysis.

## SKILLS

---

- **Languages** - Python, C, C++, Java script
- **Technologies** - Amazon Web Services (AWS), Machine Learning, Deep learning, Tensorflow, Data science, React native, Flask, Web technologies.
- **Database** - Oracle PL/SQL, SQL
- **Operating System** – Linux, Windows

## CERTIFICATION

---

- AWS Certified Cloud Practitioner - **Amazon Web Services**
- Deep learning Specialization - **deeplearning.ai**
- Deeplearning.AI Tensorflow Developer Specialization- **deeplearning.ai**
- Python for Data science and Machine learning Boot camp - **Pierian Data Inc.**
- Launching into Machine learning - **Google Cloud**

## TRAINING

---

- Linux Training
- SQL, Oracle PL/SQL Training
- Python Training
- AWS Training

## PROJECTS

---

### Sepsis Disease Detection using AI with Web Application

- Developed an AI model that predict Sepsis disease based on medical report given by the users.
- Integrated the AI model on web application.

### Login Authentication using Face and Voice Recognition

- Developed an fine-tuned Deep learning model that takes Images of people who sign up as input And when people login AI model authenticate them using Facial recognition.
- The AI model is integrated in web application.

### Automatic Question and Answer generation using AI

- Developed an AI model that generate questions based on data provided by the user.
- It is used to authenticate user for finance related application.

### Online Grocery shop Application using React native

- Contributed on Front end development for online grocery shop mobile application using react native.

## ACTIVITIES

---

- Google India Scholarship (Udacity) - Google.
- Intel EdgeAI Scholarship (Udacity) – Intel
- Head co-ordinator of National level symposium'20 in NPRCET.

## LANGUAGES

---

- Tamil - Fluent
- English – Proficient

## HOBBIES

---

- Pencil Sketching
- Reading Books
- Listening Music

## DECLARATION

---

I here declare that the above-mentioned details are true to the best of my knowledge.
